ABOUT COURSE

Adobe Photoshop

Learn to create stunning visuals, retouch images, and design complex compositions using layers, masks, and filters with professional precision.

Adobe Illustrator

Master vector-based design for logos, icons, illustrations, and scalable graphics used across print and digital media platforms.

Typography & Layout

Develop strong typographic skills — learn font pairing, hierarchy, spacing, and how type shapes brand identity and visual communication.

Branding & Identity

Understand color psychology, brand guidelines, and visual identity systems to create cohesive and memorable brand experiences.
